Yard Care:

Do I really need to mow all this grass?

Nope, you don't! We will mow all grass except for your fenced-in backyard. You will need to make sure your backyard stays nice and neat; grass no longer than 3" - 5" and the area nicely trimmed. The flower bed out front also a great area to show off your gardening skills and maybe win Yard of the Months! No gardening skills? That's all right. All we really require is that you keep the flower bed weed free.

Something isn't working right in my home, what can I do?
